Contents

1	Step : Environment	3
2	Step : Optimization algorithm	4
3	Step : Optimization with uncertain conversion rates	5
4	Step : Optimization with uncertain conversion rates, α ratios, and number of items sold per product	6
5	Step : Optimization with uncertain graph weights	7
6	Step : Non-stationary demand curve	8
7	Step : Context generation	9

Introduction

1 Step : Environment

2 Step : Optimization algorithm

3 Step : Optimization with uncertain conversion rates

- 4 Step : Optimization with uncertain conversion rates, α ratios, and number of items sold per product

5 Step : Optimization with uncertain graph weights

6 Step : Non-stationary demand curve

7 Step : Context generation
